ABOUT ME

Hello, I'm A CS student developing products with python, and web development with Django, nodejs, react, postgresql and monogodb . I've a good UI/UX understanding and best software development practices. I also code in C/C++, java and javascript. right now I'm Studying computer science at university and self-learning software development in my spare time. I really like getting obsessed with projects or things that I'm learning.

WORK EXPERIENCE

UI/UX intern

RDX delta 2023-2024

- Consistency in design elements like color, typography, and layout ensures a cohesive user experience. User-centric design focuses on understanding users' needs, behaviors, and preferences to create intuitive interfaces.
- Skilled in utilizing industry-standard UI/UX utility software such as Sketch, Figma for wireframing, mockups, and prototyping.
- Experienced in the UI/UX development life cycle, from research and analysis to design, testing, and deployment.
- Got a chance to work with a large team and using collaboration platforms

Certifications

 **Python Essentials 1 - Cisco**

GPA

Major GPA: 3.88

CGPA: 3.6
